

George Lorefice

Quality Control and Compliance Consultant

George Lorefice brings over two decades of experience in quality control and compliance from his career at Bristol Myers Squibb, where he advanced to Corporate Director and GMP Auditor for pharmaceutical and medical device facilities worldwide. He later consulted on GMP issues before joining NCODA, where he developed quality and compliance programs for Treatment Support Kits. A U.S. Navy veteran with degrees in biology from SUNY Buffalo, George is also an active advocate for climate change and community water stewardship.
